(1909 - )

## Newark (US)

### Patents (listing)

	Patent number	Application date	Title
1	US2242344	17/12/1938	Electric resistance element and process of manufacturing same
2	US2382384	03/02/1941	Process for the manufacture of shaped metal products
	DD666	01/01/1941	Verfahren zur Herstellung von Walzprofilen aus Metall
3	US2350387	07/02/1941	Welding rod or electrode
4	US2311368	22/03/1941	Means for transforming rotary to reciprocatory motion as applied to cutting machines
5	US2446809	28/05/1945	Automatic tongs for manual electric arc welding or cutting
6	US2663921	08/06/1949	Method for the centrifugal casting of metal parts
	FR1019067	08/06/1949	Procédé et installation pour la coulée centrifuge de pièces métalliques
	CH287631	24/05/1950	Procédé et installation pour la coulée centrifuge de pièces métalliques
	DE846775	05/06/1950	Schleudergießverfahren und Vorrichtung zur Herstellung von Metallteilen
	GB676334	26/05/1950	Method and equipment for the centrifugal casting of metal parts
	ES193473	06/06/1950	Un procedimiento e instalación para la colada centrifuga de piezas metálicas
