

# STERN Hugo

( - )

## Biography

It has not been possible to collect any reliable biographical notes on Hugo STERN.

He was resident in Luxembourg around 1904 as documented by the fact that he took part in the 1905 Exposition universelle in Liège with the Luxembourg delegation. <sup>1</sup> He was awarded a silver medal.

STERN's "water meter" invention was mentioned in the Belgian technical press in 1905. <sup>2</sup>

---

<sup>1</sup> It has to be pointed out that in 1904 STERN declared in his German and French patents that he resided in Germany.
