

# BRENTJÈS Joseph

(1853 - ) <sup>1</sup>

Sonsbeck (DE)

## Biography

BRENTJÈS was a *Kaufmann* residing in Halle an der Saale (Germany) in the early 1900s.

Although he declared in his French patent that he resided in Luxembourg in 1908, it is very unlikely that he spent a lot of time in the country.<sup>2</sup>

It is also curious to note that he gave his family name a French connotation.

Joseph BRENTJES, born in 1853 in Sonsbeck/Rheinland, is the most likely person to correspond to the present inventor.
